1) What's your top reason for choosing a color analysis?

At least a week before your appointment, please send by email three photographs/selfies are fine—

- A. One of you taken post-puberty (around 21) in natural light if available
- B. One without makeup—in natural light and with hair pulled back
- C. *.A close up of your eye (eyeball) so I can see your eye pattern – this is also a key picture*

You are welcome to send the following or bring with you to your appointment, if available, but it is not essential:

- 1. Photo of you as a child/in color if available
- 2. As a teenager
- 3. Any photo between 30 and now
- 4. A current picture of you with your makeup on/straight on shot

Please contact me with any questions.
